

A Swedish  
original for  
over 70 years!

## ZONE 2

# Kabe Original

The Kabe Original is a combination of scraper grid and doormat for use indoors and out. The corrugated rubber strips bend easily when trod on and spring back with sufficient force when the pressure is being released to sweep dirt and moisture from shoes by simply walking over the mat. The dirt removed from the shoes falls down between the corrugated rubber strips and is hidden from view. The Kabe Original can be rolled up and is 100% recyclable – an important benefit for the future!

## TECHNICAL INFORMATION

### KABE ORIGINAL

#### WEIGHT

Approximately 12 kg/m<sup>2</sup>.

#### MAT HEIGHT

Standard 22 mm or 18 mm for existing recesses with heights 15-19 mm.

#### MAT SIZE

The Kabe Original is made to measure in any size. Max. size of a single piece 2000 x 5000 mm (A x B). To cover larger areas, the mat is divided into suitably sized sections. We can produce mats of almost any shape. Provide us with a drawing or template.

#### FLAT BARS

Aluminium alloy EN AW-6005-A-T6  
Dimensions 12 x 4.5 mm.

#### RUBBER STRIP

A composition that is especially resistant to extreme temperature variations. EPDM 70° Shore, dimensions 22 x 3.7 mm.

#### END PROFILE

U 18 x 18 x 2 mm.

#### ASSEMBLY

The rubber strips and aluminium bars are riveted together with special rivets. The mat is held together by Ø 2.3 mm stainless steel wire.

#### SURFACE TREATMENT

The Kabe Original comes in natural aluminium as standard but can also be supplied in gold or black anodised aluminium.

#### ACCESSORIES

Shopping trolley reinforcement is available.
