

ZONE 2

Kabe Eco

Kabe Eco is an entrance mat for entrances with requirements for good aesthetics combined with good function. The mat is a modern interpretation of the original Kabe mat from the 1940s, with a durable structure of wood batons and rubber strip. Kabe Eco can be rolled up and is suitable for outdoor use.

KABE ECO

WEIGHT

Approximately 15 kg/m².

MAT HEIGHT

22 mm.

MAT SIZE

Made to measure, max. size for a single piece 1500 x 2000 mm (A x B). Under 400 mm for A-dimension, there is an additional set-up cost.

WOODEN BATONS

Pine, dimensions 17 x 12 mm.

RUBBER STRIP

A composition that is especially resistant to extreme temperature variations. Black: EPDM 70° Shore. Grey or Red: TPE 65° Shore. Dimensions 22 x 3.7 mm.

END PROFILE

Oak, dimensions 20 x 22 mm, which can be covered with brass strip.

ASSEMBLY

Rubber strips and wooden batons are joined with clamps. The mat is held together by Ø 2.3 mm stainless steel wire.

SURFACE TREATMENT

The wooden batons are stained and clear varnished.
