

ZONE 2

Kabe Original Colour

Create a colourful entrance solution with Kabe Original Colour! The mat has the same design as the Kabe Original, but is available with grey or red rubber alternatives combined with the Kabe Original entrance mat with black rubber. Kabe Original Colour can also be used for a simple pattern (depending on the size of the entrance). In addition, because the mat is the same on both sides, drainage and run-off are improved by the serrations on the reverse side. The entrance mat can be rolled up and is 100% recyclable. The mat can also be manufactured in other colours. Contact us for more information!

Kabe Original Colour can also be manufactured in other colours.

KABE ORIGINAL COLOUR

WEIGHT

Approximately 12 kg/m².

MAT HEIGHT

Standard 22 mm.

MAT SIZE

Kabe Original Colour is manufactured made to measure. Max. size of a single piece 2000 x 5000 mm (A x B). To cover larger areas, the mat is divided into suitably sized sections. We can produce mats of almost any shape. Provide us with a drawing or template. Under 400 mm for A-dimension, there is an additional set-up cost.

FLAT BARS

Aluminium alloy, EN AW-6005-A-T6. Dimensions: 12 x 4.5 mm.

RUBBER STRIP

A composition that is especially resistant to extreme temperature variations. TPE 65 Shore. Dimensions 22 x 3.7 mm. Colours red RAL 3011 and grey RAL 7040.

END PROFILE

U 18 x 18 x 2 mm.

ASSEMBLY

The rubber strips and aluminium bars are riveted together with special rivets. The mat is held together by Ø 2.3 mm stainless steel wire.

SURFACE TREATMENT

Natural aluminium is standard for Kabe Original Colour but it is also available in gold or black anodised aluminium.

ACCESSORIES

Shopping trolley reinforced, tactile indicators.
